

Carbon Combo Water Softener

ADD THE POWER OF CARBON

- 💧 Radiant spot-free dishes
- 💧 Removes Chlorine and/or Chloramines*
- 💧 Cleaner fresher tasting water
- 💧 Softer skin & manageable hair
- 💧 Save up to 50% on soap and cleaning products
- 💧 Extend the life of your appliances
- 💧 No more "rotten egg" smell*

*Depends on Model

How it works

Aquatek Carbon Combo water-softening systems combine two units into one providing an economical option for improved taste, odor reduction and the removal of Chlorine with -C models (Coconut Shell Carbon) or Chloramines with -CC models (Centaur Carbon). Removing these contaminants adds longevity to the water softener and helps keep maintenance costs lower over time. These units utilize the same high quality components as the ATWS systems with an added shelf in the media tank allowing for a bed of granulated carbon media to remove contaminants and soften water simultaneously.

Benefits

Get all the benefits of traditional water softeners - cleaner dishes, cleaner & fresher laundry, no more water spots, silky smooth skin and manageable hair, and extended life and efficiency of most water using appliances. PLUS the added Carbon filtration stage removes chemicals such as Chlorine & Chloramines and greatly improves taste & water quality!

FEATURES

- ◆ Full port metered electronic control valve saves up to 50% salt & water usage
- ◆ Protects plumbing fixtures & appliances from hard water damage
- ◆ Tracks daily usage and automatically adjusts to match demand
- ◆ Eliminates water spots and lime scale build up
- ◆ Leaves your skin and hair softer and more manageable

SYSTEM SPECIFICATIONS:

Model Number	Grain Capacity	Flow Rate @ 15 psid	Pipe Size	Electrical	Salt Storage / Usage (lbs)	Brine Tank Size (in)	Mineral Tank Size (in)	Total System Size (in)
ATWS100-C	30,000	6.5	1" NPT Elbow	120v. 60Hz	200 / 15	16 x 33	10 x 54	29 x 29 x 65
ATWS100-CC	30,000	6.5	1" NPT Elbow	120v. 60Hz	200 / 15	16 x 33	10 x 54	29 x 29 x 65
ATWS150-C	60,000	9	1" NPT Elbow	120v. 60Hz	200 / 20	16 x 33	13 x 54	32 x 32 x 65
ATWS150-CC	60,000	9	1.25" NPT	120v. 60Hz	200 / 20	16 x 33	13 x 54	32 x 32 x 65
R-2014	Description:	Revere Wireless Low Salt Sensor. Add to any ATWS system and receive wireless updates when it is time to add salt.						

Coconut Shell Carbon "-C" Models - Coconut Shell Carbon is recommended when Chlorine removal is desired.
Centaur Carbon "-CC" Models - Centaur Carbon is recommended when Chloramines removal is desired and/or hydrogen sulfide "rotten egg" smell in well water applications.

Add Wireless Low Salt Alerts!
